The Statistical Analysis Center is a program of the Office of Justice Assistance. The Center collects, analyzes, interprets, and disseminates criminal and juvenile justice data.

The Center administers the State Uniform Crime Reporting (UCR) program. The sexual assault data reported in this publication are collected as part of the UCR program. The Center also maintains three other data systems: data on county jail inmates, drug enforcement Task Force data, and statewide juvenile detention data. The Center prepares annual reports and other special reports on the data and other information maintained in these systems.

In addition to operating certain data systems and disseminating related information, the Center conducts other special studies and data analyses and responds to over 400 requests for data and other information each year.

Acknowledgment

The Office of Justice Assistance wishes to acknowledge the contribution of local law enforcement agency staff and administrators in providing the data for this publication. Without their time and diligence, this report would not be possible.

INTRODUCTION

This report represents data on sexual assaults reported to law enforcement agencies in Wisconsin for the period of January 1, 1999 through December 31, 2001. The Statistical Analysis Center (SAC) has collected data on sexual assaults as part of the UCR program since January 1, 1984. Data is collected as aggregate statistics (monthly totals); sexual assault data is collected on a case-by-case basis. Further information about the collection and interpretation of this data can be found in **Appendix A**.

Since the 1930's Law Enforcement agencies have been reporting on Rape and Attempted Rape of females as part of the Federal Bureau of Investigation's Uniform Crime Reports. These data represent only rapes reported to the police. In addition, the FBI limited its definition of rape to include "penis to vagina" penetration or attempted penetration. The FBI's report does not specify the nature of the rape. Moreover, those sex crimes that did not include penetration are not included.

For many years, the UCR program has collected data on "forcible rape," defined by the UCR program as "the carnal knowledge of a female forcibly and against her will." Sexual assault in Wisconsin is defined in sections 940.225 and 948.02 of State Statutes. The statutes define four degrees of assault "sexual contact or sexual intercourse" between persons of either sex. This definition is considerably broader than the UCR definition of forcible rape. A copy of the Wisconsin sexual assault statutory language can be found in **Appendix B**.

This report will focus on five sexual assault offense types defined by both the national and Wisconsin Incident Based Reporting systems (IBRS), and one additional assault category defined by State Statutes and included in the Wisconsin IBRS for a complete count of sexual assaults. These offense types are: Forcible Rape, Forcible Sodomy, Assault With An Object, Forcible Fondling, Statutory Rape, and Ejaculate/Excrete Upon Victim. A copy of this data collection form can be found in **Appendix C**.

Unless, otherwise noted, "all" figures in this report include the combined numbers for the three (3) calendar years of 1999, 2000 and 2001. Future Sexual Assault reports will again be published on an annual basis. Note that this report only includes cases determined to be "founded" (i.e. sufficient evidence to proceed). Reported but "unfounded" cases are excluded from this report.

NUMBER AND NATURE OF SEXUAL ASSAULTS

This section provides information on all reported and founded sexual assaults. Table 1 shows assaults by category of degree for the past three years. Graph 1 shows the relative volume of cases of each type of sexual assault.

The six UCR-IBR categories of sexual assaults provide a measurable and objective means of categorizing them by the nature of victim impact. The best objective measure of the nature of victim impact related to a sexual assault is whether or not it involved penetration of a body orifice, with either genitalia or an object, forcibly or without consent. The offenses with the greatest possibility for physical injury (forcibly rape, forcible sodomy and assault with an object) all encompass these characteristics and will be examined as one group later in this report.

TRENDS IN REPORTED SEXUAL ASSAULTS

The total number of sexual assaults reported to Law Enforcement have been fairly stable for the last few years. Changes in the number of reported sexual assaults could reflect a number of variables. While an actual change in the number of sexual assaults is one possible explanation, other possibilities include a change in the number of victims willing to report, increased reporting by mandated reporters, and improvements or changes in record keeping.

SEXUAL ASSAULTS BY JURISDICTION

Law enforcement agencies submit Sexual assault data on a monthly basis as part of the Uniform Crime Reports. If there are no assaults to report, a zero report is indicated. This procedure allows missing data to be estimated for specific jurisdictions, and hence for county and state totals.

Table 10 on the following pages shows the total number of sexual assaults reported by each reporting jurisdiction. County and state totals are summed from these figures. Offense type subtotals are also provided, with the exception of those for Ejaculate/Excrete Upon Victim, which had too few cases to be listed separately.

The actual agency totals are summed to provide a State Total at the bottom of the Table.

SUMMARY OF FINDINGS:

Presently, there are 377 participating law enforcement agencies that submit sexual assault data to the Statistical Analysis Center at the Office of Justice Assistance as part of their monthly Uniform Crime Report.

In 1999, there were 6,002 sexual assaults reported by participating Law Enforcement agencies. Of the 6,002 cases reported 21.1% were Forcible Rape, 9.1% Forcible Sodomy, 3% Sexual Assaults With An Object, 47.6% Forcible Fondling, 18.6% Statutory Rape, and 0.5% Ejaculation/Excrete Upon Victim. Law Enforcement agencies reported that the victims knew 63.3% of the perpetrators, 23.4% of the perpetrators were related to the victim and 13.3% were strangers. The victim in over 70% of the reported cases was a white female. Over 25% of victims were less than 13 years of age, with 31.5% of these assaults occurring at the victims residence. The perpetrator in over 90% of the reported cases was a white male. In approximately 30% of the cases the perpetrator was between 12 and 15 years of age. In 7.5% of the reported cases the victim reported the use of a firearm, knife, blunt object, and/ or drug. Over 90% of the perpetrators were referred to criminal or juvenile court. The statistics show that there was 1% decrease in reported sexual assaults for the period of January 1, 1999 through December 31, 1999.

In 2000, there were 5,549 sexual assaults reported by participating Law Enforcement agencies. Of the 6,002 cases reported 24.2% were Forcible Rape, 9.6% Forcible Sodomy, 3% Sexual Assaults With An Object, 45.3% Forcible Fondling, 17.2% Statutory Rape, and 0.6% Ejaculation/Excrete Upon Victim. Law Enforcement agencies reported that the victims knew 68.3% of the perpetrators, 19.9% of the perpetrators were related to the victim and 11.7% were strangers. The victim in over 70% of the reported cases was a white female. Over 28% of victims were less than 13 years of age, with 33.2% of these assaults occurring at the victims residence. The perpetrator in over 96.8% of the reported cases was male with 63.6% white. In 29% of the cases the perpetrator was 30 years of age or older. In 9% of the reported cases the victim reported the use of a firearm, knife, blunt object, and/or drug. Over 90% of the perpetrators were referred to criminal or juvenile court. The statistics show that there was 10.4% decrease in reported sexual assaults for the period of January 1, 2000 through December 31, 2000.

In 2001, there were 5,292 sexual assaults reported by participating Law Enforcement agencies. Of the 5,292 cases reported 22.7% were Forcible Rape, 9% Forcible Sodomy, 2.9% Sexual Assaults With An Object, 48.3% Forcible Fondling, 16.7% Statutory Rape, and 0.5% Ejaculation/Excrete Upon Victim. Law Enforcement agencies reported that the victims knew 68.1% of the perpetrators, 21.5% of the perpetrators were related to the victim and 10.3% were strangers. The victim in 86.8% of the reported cases was female with 73.5% white. Over 25% of victims were less than 13 years of age, with 32.8% of these assaults occurring at the victims residence. The perpetrator in over 92.8% of the reported cases was a white male. In approximately 33.1% of the cases the perpetrator was 30 years of age or older. In 7.1% of the reported cases the victim reported the use of a firearm, knife, blunt object, and/drug. Over 97% of the perpetrators were referred to criminal or juvenile court. The statistics show that there was 4.7% decrease in reported sexual assaults for the period of January 1, 2001 through December 31, 2001.

SEXUAL ASSAULT DEFINITIONS

Sexual assaults encompass a wide range of incidents, from violent rapes to less physically injurious sexual contact. While the nature of victim impact connected to an assault is related to a number of factors, such as the extent of the victim's trauma, physical injuries, and so forth, these are not always easily measured. The nature of victim impact connected to the assault is also defined, to some degree, by the six offense categories utilized in the Uniform Crime Reporting - Incident-Based system, as defined below:

Forcible Rape:

Vaginal intercourse with a person, forcibly and/or against that person's will, or where the victim was incapable of giving consent because of his/her youth or temporary or permanent mental or physical incapacity.

Forcible Sodomy:

Oral or anal sexual intercourse with another person, forcibly and/or against that person's will, or where the victim was incapable of giving consent because of his/her youth or temporary or permanent mental or physical incapacity.

Sexual Assault With An Object:

The use of an object or instrument to unlawfully penetrate, the genital or anal opening of the body of another person forcibly and/or against that person's will, or where the victim was incapable of giving consent because of his/her youth or temporary or permanent mental or physical incapacity. *Note:* An "object" or "instrument" is anything used by the offender other than the offender's genitalia. Examples include a finger, bottle, handgun, stick, etc.

Forcible Fondling:

The touching of the private body parts of another person for the purpose of sexual gratification or victim humiliation, forcibly and/or against that person's will, or where the victim was incapable of giving consent because of his/her youth or temporary or permanent mental or physical incapacity. *Note:* Forcible Fondling includes "Indecent Liberties" and "Child Molesting." Although "force" may not have been used, offenses may fall into this category because the victim was incapable of giving consent, or did not give consent.

Statutory Rape:

Sexual intercourse with a person who is under the statutory age of consent. In Wisconsin no unmarried juvenile can give consent to sexual intercourse. Only when the victim is *under 16 years of age* is intercourse defined as a *sexual assault* (note that both parties would be offenders and victims in an assault if they are both under age 16). *Note:* If force was used or threatened, the offense should be classified as Forcible Rape, not Statutory Rape. A code of Statutory Rape (6) implies that the victim has the ability/knowledge to give consent. Sexual activity involving a child 10 or under should always be recorded as forcible. Sexual activity involving older child victims should be carefully reviewed to determine whether they could have given reasonably informed consent

Ejaculate/Excrete Upon Victim:

Intentional penile ejaculation or the emission of urine or feces by the offender upon any part of the body of the victim, for the purpose of sexually degrading or sexually humiliating the victim or for the purpose of sexually arousing or gratifying the offender. This category of assault was added to Wisconsin Statutes in 1996. It is not a category of the national (FBI) Incident-Based Reporting System.

Appendix A

DATA COLLECTION AND INTERPRETATION

The assaults described and analyzed in this report are those reported to law enforcement agencies for the past three years. The data are submitted to SAC as part of the monthly UCR report of law enforcement agencies. Data is collected on the Wisconsin Sexual Assault Form, which is reproduced in **Appendix C**. As with any sensitive crime, actual reports of offenses to law enforcement agencies may not be totally representative of all assaults committed. Assaults not reported to law enforcement agencies cannot be addressed in this report, even though they may be reported to other agencies such as social services or medical agencies.

The unit of analysis in this report is the assault or offense, which is usually defined as involving one victim; that is, for any given incident, one assault is counted for each victim. The one instance in which several assault incidents are counted as one assault is the case of an ongoing assault. For this report, a series of assaults on one person, which constitute one “clear and distinct criminal operation”, is counted as one offense. One example of an ongoing sexual assault is an interfamilial assault situation in which incidents take place over a long period of time. This is counted as one (ongoing) assault.

The data in this report focus on all reported cases, in most cases regardless of the eventual disposition of the cases by the law enforcement agency or the court. The factual accuracy of these reported assaults and the circumstances surrounding them has, in a legal sense, not been substantiated. Although “unfounded” cases (as determined by the law enforcement agency) are still reported and maintained in the database, this report deals only with “founded” cases.

Although “unfounded” cases (as determined by each law enforcement agency individually) are still reported and maintained in the database, this report deals only with cases determined by each jurisdiction to be “founded” (generally meaning consisting of enough evidence to proceed). In order for a case to proceed, law enforcement must meet a self-determined evidentiary standard, which establishes that there is probable cause to believe that a crime has occurred. Because sexual assault cases (especially less injurious ones) often result in a lack of physical evidence, meeting this standard on the basis of the victim’s word and the perpetrators defense can be difficult. Therefore, approximately 10% of sexual assaults reported to law enforcement are determined to fall into the category of “unfounded”.. It is important to distinguished “unfounded” vs. false cases. While “unfounded cases lack a certain standard of evidence, false cases include evidence which proves to the standard of probable cause that a crime did not happen.
